XpressBio

CELL BASED ASSAYS

CELL VIABILITY, PROLIFERATION & CYTOXICITY

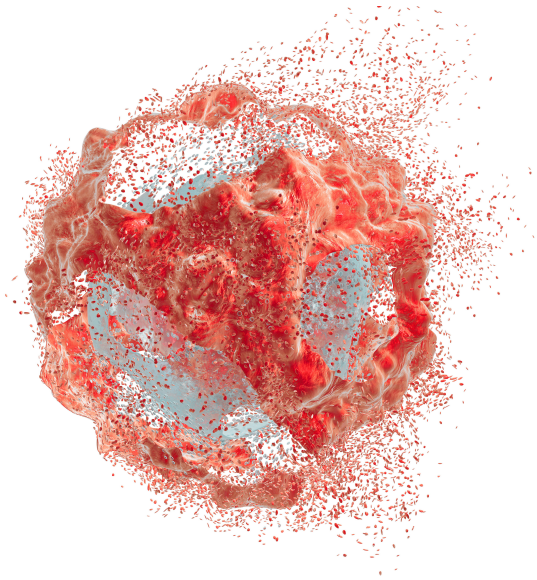
- Apoptosis - FITC, APC, Biotin, and PE
- XTT Cell Proliferation
- Cytotoxicity - LDH and SRB
- Resazurin Cell Viability
- Senescene Detection

OXIDATIVE STRESS

- Catalase Activity
- SOD Activity
- tROS Detection
- TBARS Assay

REPORTER GENE

- SEAP
- FDG Galactosidase
- ONGP Galactosidase
- Firefly Luciferase
- Firefly & Renilla Dual Luciferase



FEATURES

- Quantitative assays with high sensitivity
- Quick, easy to follow protocols
- Long shelf life
- Cost effective
- Multiple sizes available
