

## Certificate of Analysis

**Name:** Vivax/Falciparum Malaria Antigen

**Catalog No.:** SA835C

**Lot No.:**

**Source:** E.Coli

**Purity:** >90% by SDS-PAGE

**Form:** Supplied as a liquid in PBS, pH 7.2, 0.1% sodium azide.

**Storage & Stability:** May be stored at 4<sup>o</sup>C for short-term only. Aliquot to avoid, repeated freezing and thawing. Store at -20<sup>o</sup>C. Aliquots are stable for at least 6 months at -20<sup>o</sup>C. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap. Further dilutions can be made in assay buffer.

This material has been photochemically inactivated. However, as with all biological materials, it should be handled as potentially infectious.

This product is intended for research and manufacturing uses only. It is not a diagnostic device. Product degradation will result from multiple freeze/thaw cycles. It is suggested that the antigen be stored in use size aliquots and thawed just prior to use. This material has been inactivated, however as with all biological materials, it should be handled as potentially infectious. The user assumes all responsibility for care, custody and control of the material, including its disposal, in accordance with all regulations.
